

Package collection from SSPMCL Parcel Locker

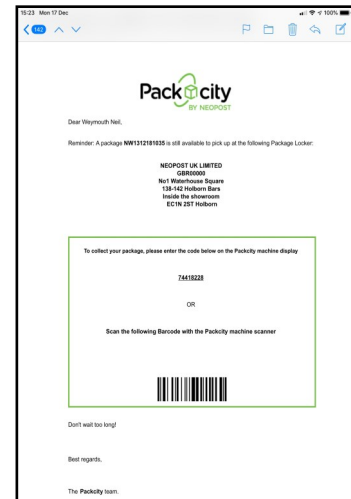

When your package is ready for collection you will receive an email notification.

This will contain the following:
locker location details.

A collection Barcode and 8 digit collection code.

Note:

A second notification will be sent as a reminder after one day if the package is not collected.

1. Press

PICK UP

on the user screen before scanning any barcodes.

Note:

Do not place the barcode directly onto the scanner glass. Offer at around 100mm distance.

2. Scan the barcode or enter the 8 digit code from your phone or printed notification, using the on screen keypad.

3. If correct a locker door will automatically open. Retrieve the package and then close the locker door.

Note: *If the door is not closed the locker will bleep until closing is confirmed.*

This completes the package collection and puts that locker back in action
